L'accreditamento attesta la competenza tecnica del Laboratorio relativamente al campo di accreditamento riportata nell'Elenco Prova allegato al presente certificato di accreditamento.
 The present certificate is valid only if associated to the annexed schedule, that may vary at the time.
 Confirmation of the validity of accreditation can be verified on website www.aisico.it or by contacting the relevant department.
 The management system requirements in ISO/IEC 17025 are written in language relevant to leading laboratories operations and generally applicable in accordance with the principles of ISO 9001.

The accreditation certifies the technical competence of the laboratory limited to the scope detailed in the attached Enclosure.
 Confirmation of the validity of accreditation can be verified on website www.aisico.it or by contacting the relevant department.
 The management system requirements in ISO/IEC 17025 are written in language relevant to leading laboratories operations and generally applicable in accordance with the principles of ISO 9001.

Stack of reports titled "ESTRATTO/ ABSTRACT" from Centro Prove AISICO. The top report details a SLED TEST for a Guardrail monofiliare antiurto GRB D120 R. It includes test parameters like impact speed (14.90 km/h), impact energy (34900 J), and test date (16-17/04/2014).

Stack of full test reports titled "Rapporto di Prova/ Test Report" from Centro Prove AISICO. The top report details a pull out test for a concrete slab. It includes test parameters like pull out force (203000 N) and test date (17/04/2014).

crash testy
odolnost zábran

pull out testy
nezničení a nevytrhnutí z podlahy
